FEATURES

## ACCESS CONTROL SOLUTIONS

# KEY SWITCHES

The models 1207 and 1209 are momentary contact devices and utilize a mortise cylinder that can be re-keyed by your locksmith to match other access keys. The model 1209 includes a built in eight ohm speaker, push button, and is lighted. The 1209 is designed to be connected to an existing intercom system and used as a substation to the system. The model 1210 uses an ACE key cylinder that can be turned ON for constant contact applications, such as holding an electronic gate system open.
